I am currently a PhD student in Voice Research Lab of HKU. I received my Master's degree in Speech and Hearing Rehabilitation Science from East China Normal University. My research interests are voice assessment and treatment for individuals with voice disorders or problems, including children, the elderly and professional voice users. I am also keen on exploring the relationship between aging voice and speech intelligibility. Besides, I have experience as a speech therapist for children and am interested in the clinical rehabilitation of voice and speech production.

Research Output

Zhou, J., **Gao, S.** (corresponding author), Sun, T., Gao, W., Fu, W., Ying, Z., & Mao, W. (2022). Sleep quality, anxiety, somatic symptoms, and features of brain structure in parents of children with disabilities. *Social Behavior and Personality: An international journal*, 50(6), e11557

Gao, S. H., Lu, H. Y., Zhou, J. (2020). An investigation on the current situation of rehabilitation institutions for special children in Ningbo [Chinese]. *Chinese Scientific Journal of Hearing and Speech Rehabilitation*, 18(03), 226-228.

Zhou, J., **Gao, S. H.**, Gao, W. W., Shen, X. L., Yao, X. H. (2020). Vocal training for patients post vocal cord polyp surgery based on ICF and ICHI [Chinese]. *Chinese Journal of Rehabilitation Theory and Practice*, 26(01):45-48.

Gao, S. H., Zhao, H., Kim, H. K., Wan, Q. & Huang, Z.M. (2019). A Review of CV syllables dichotic listening [Chinese]. *Journal of Audiology and Speech Pathology*, 27(04):437-442.

Kim, H. K., **Gao, S. H.**, Yi, B., Shi, R. J., Wan, Q., & Huang, Z.M. (2019). Validation of the Dysphonia Severity Index in the Dr. Speech program. *Journal of Voice*, 33(6), 948.e923-948.e929.

Kim, H. K., **Gao, S. H.**, Shi, R. J., Zhang, Y. Z., Liu, X.M., & Yi, B. (2018). Influence of gender and age on the Dysphonia Severity Index: a normative study in a Shanghainese population. *Clinical Linguistics & Phonetics*, 33(3), 279-293.
